STATISTICS OF CARRIERS BY INLAND AND COASTAL WATERWAYS
AND MARITIME CARRIERS

YEAR ENDED DECEMBER 31, 1949

INTRODUCTORY STATEMENT

This summary of statistics for the calendar year 1949 is the 30th of a series compiled from the annual reports filed by those carriers by water subject to the jurisdiction of the Interstate Commerce Commission.

For the year 1949, 287 annual reports were received from carriers by Inland and Coastal Waterways, and 40 from Maritime Carriers.

The carriers by Inland and Coastal Waterways have been divided, for reporting purposes, into three classes based on their average annual operating revenues and in accordance with the following definitions: Class A carriers are those having average annual operating revenues exceeding \$500,000; class B carriers are those having average annual operating revenues exceeding \$100,000 but not more than \$500,000; and class C carriers are those having annual operating revenues of \$100,000 or less.

Of the 287 carriers by Inland and Coastal Waterways, 67 were in class A, 85 were in class B, and 135 were in class C. There were 4 Holding companies, 2 in class A and 2 in class B for which data are not included in the compilations. The class C carriers are not required to file detailed annual reports, but the number and total operating revenues of such carriers are given in the table below. Twenty-six reports of the class C carriers could not be used in the compilation because of inadequate data.

From 1942 to 1947, carriers now included in the category, Maritime Carriers, were permitted to file a copy of their General Financial Statement required by the United States Maritime Commission, in lieu of the regular annual report to the Interstate Commerce Commission. Abstracts of selected items from those reports regularly appeared in issues of this publication.

In addition to the annual reports, the Commission requires from carriers by water quarterly reports covering data of freight revenue, passenger revenue, tons of revenue freight carried, and number of revenue passengers carried. A summary of these reports is published quarterly.

Tables 1, 2 and 3 are confined to selected data from the annual reports of carriers by Inland and Coastal Waterways.

Table 4 gives an abstract of selected financial items from the reports of Maritime Carriers, and table 5 summarizes the tons of domestic revenue freight carried and gross freight revenue reported by the Maritime Carriers as well as the totals of both Maritime Carriers and carriers by Inland and Coastal Waterways.

The relative importance of the several classes of carriers by Inland and Coastal Waterways (excluding Maritime Carriers) is shown in the table below. The following Holding companies are not included in the count, McAllister Bros. Inc., (A&GC), Sound Chartering Corp., (A&GC), Union Terminal Piers, Inc., (GL) and Standard Unit Navigation Co. (MR&T).

For the year 1949, forty Maritime Carriers reported total operating revenues of \$402,603,987 from foreign and domestic services and for 1948, thirty-nine of these carriers reported \$504,359,277 of such revenues. As shown in table 4, the total operating revenues for 1949, are divided into \$232,416,882 from foreign service, \$103,944,573 from coastwise and intercoastal service, \$53,399,542 from unallotted service, and \$12,842,990 from terminal service.
